EXAMINER'S ACTION

Art Unit 136

A. Restriction to one of the following inventions is required under 35 U.S.C. § 121:

I. Claims 1-28, drawn to a screen and backing, and the method of making, classified in Class 210, subclass 499.

II. Claims 29-31, drawn to method of making a rolled and shrink-fit screen cylinders, classified in Class 29, subclass 447.

B. The inventions are distinct, each from the other because of the following reasons:

C. Inventions II and I are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (M.P.E.P. § 806.05(f)). In the instant case the product as claimed can be made by a materially different process such as machining the screens to fit as an intermediate or final process.

D. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, and by their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

E. Applicant is advised that the response to this requirement to
